Tun following letter signed "Bric-a-Brac," appears in the Shaughai Courier:-

that a Chinese teacher in Hongkong has presented to the City Hall Museum of that place a curiosity in the shape of an unhulled grain of rice inscribed with thirtythree Chinese characters, consisting of stanza of poetry, composed by the teacher himself and written out at length without any contractions. Your contemporary, the China Mail, from whom you quote the information, said that "it seems almost incredible, but it is a fact that the whole of these thirty-three characters are inscribed on one grain of unhulled rice." While reading the item yesterday, I happened to inform my compradore of this, and he, who has been a resident here for more than he was very violent. Stewart, who was fifteen years, says that this is nothing to fined 50 cents or one day's imprisonment compare with what he has seen. He says for simply being drunk on Friday last, was that about eight years ago, a Chinaman | now fined 50 cents or two days' imprisoncame from Hankow. He lived in the Fohkien Road, and dealt in curiosities of this kind, and sold them for the low price of \$1 each. The curiosities in question consisted of sesamum seed inscribed with not less than sixty distinct Chinese characters. My compradore further says that he bought one himself, and on examination through a magnifying glass, he discovered the characters to be quite clear. In proof of this assertion, another Chinaman this morning corroborated his statement.

INQUESTS.

Four inquests were held at the Government Civil Hospital this afternoon, before the Coroner, Mr H. E. Wodehouse, and a Jury composed of the following gentlemen: Mesara J. J. Bell-Irving, D. L. de J. Alemao and J. F. W. Gerdes.

The first was on the death of a Chinese male adult, whose body was taken to steamer Haean this morning (27th) to be the Hospital yesterday. The deceased was named Lau Alok, was about forty years of in cages at 3 a.m. and put on board the age, worked as a street coolie, and lived in Ship Street. He had been ailing with diarrhosa for several days previous to his death, and had died some time between Sunday night and Monday morning while sleeping outside the door of the house where he resided. The Jury returned a verdict of death from natural causes.

The second was held on the death of a account of our inability to find out the Chinese male whose body was found floating in the harbour in front of the Sailor's Home about one o'clock this morning. The body was identified as that of Lee Achik (24), a coppersmith by trade, by one of his fellow workmen. The man who identified the body said that the deceased had been insane for some days previous to Sunday last, on the afternoon of which day he left his employment and went to the Prays. followed by the witness. Seeing witness behind him the deceased turned round and told him that he was going to the Quong Tai coppersmith's shop. Witness went home again, and heard nothing further of him until he viewed the body in the morgue this forenoon. A verdict of found drowned was returned.

The third was held touching the death a man who was arrested in Jardine's Bazaar yesterday evening. As he appeared to be very ill he was taken to the Hospital where he remained until this forencon when he died. Dr Stockwell said he was of opinion that death had resulted from diarrhos and general debility. The enquiry was adjourned until Wednesday next, owing to the absence of the constable who had arrested him.

In the fourth inquest the deceased was named Li Ato. He had fallen down several of the steps leading from Peddar's Hill Wyndham Street on Friday afternoon, and sustained to severe injuries that he had remained insensible from the time he recoived them until his death, which took place in the Hospital yesterday morning. The deceased resided in Wellington Street, and had not been engaged in any employment for two or three years. He was under the influence of liquor when he met with the accident. Dr Stockwell described the wounds as being a slight embrasure on the right knee, an embrasure of the skin over the loft temple, and a large contusion on the right side. Dr Stockwell was of opinion that death resulted from these injuries. verdict of accidental death was returned.

THE CHINA REVIEW. PUBLISHED BI-MONTHLY. TENTH YEAR,

TIHIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of "Notes and Queries on China and Japan," has reached its Tenth Volume. The Review discusses those topics which are uppermost in the minds of students of the "For East" and about which every intelligent person con-nected with Chine or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

The Review department receives special attention, and endeavours are made to present a careful and concise record Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to "Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowiedgo on obscure points.

farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin or any of the Modern Languages are recoived. The papers are contributed by the members of the various Consular, the 1mperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously custivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, Hirth, and Hance, Professor Legge, and Masses B dfour, Watters, Stont, Phillips, Mcclatyre, Groot, Jamieson, Faber, Kopseh, Parker, Playfair, Giles, and Piton, - all well known names, indicative of sound scholarship and thorough mastery of their subject. The Subscription is fixed at \$6.50 per

annum, postage included - payable in ad Orders for binding volumes will be promptly attended to; Address, "Manager, China Mail Office.

OPINIONS OF THE PICESS

"All our learned societies should sub scribe to this scholarly and enterprising Review."--Northern Christian Advocate (V S.) "The China Review * * * * has an ex cellent table of contents." Celestial Empire. "The Publication always contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers."-Celestial Empire.

"This number contains several articles of interest and value." - North-China Herald "The present number of this periodical, * * * * opens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but conaidering the comparatively small circulation it enjoys at present among the commercial communities of China, we had the innovation as likely to recommend the Review to t the notice of those who take an interest in few matters beyond mercantile pursuits." --

North-China Herald. "The China Review for September-October fully maintains the high standard of excellence which characterises that publication, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880, "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting."-North-China

all students of China and the Chinese would do well to patronise."-Chrysanthemum. "The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necessarily be of great importance in the eyes of all missionaries. . . Mr E. H. Parker's "Short Journeys in Szechnen are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes paper of some length entitled "The Em-

peror Cheng, founder of the Chinese Empire," which will be read with genuine interest by scudents of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number."—H.K. Daily Press. Trubner's Oriental Record contains the

following notice of the China Review:-

The present publication, judging by the

number now before us, is intended to

occupy a position, as regards China and the

neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of at tention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of pub licity as is now provided extremely desirable and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chineso Customs' corps, and the missionary body, among whom a high degree of Chincse scholarship is now assiduously cultivated. and who are severally represented in the first number of the Review by papers highly creditable to their respective authors
Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of century, Su Tung-p'o, by Mr. E. C. Bowra. is not only historically valuable, but is also distinguished by its literary grace. Beside | One Hour, the East, which will be a useful feature the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review

may receive the support necessary to insure

its continuance.
